

REMARKS

No new matter has been added. The amendments to the claims address typographical and spelling errors, and improve antecedent basis. The amendments do not affect, or surrender, any scope of any claim as originally filed.

FIG. 7 has been amended herein. Specifically, FIG. 7 has been revised to add the insulator material layer --128-- (2 occurrences, along with appropriate lead lines) to the outside of reference numeral "134." This addition is supported by language in Paragraph [0036] of the Specification and was inadvertently omitted from the original drawing. No new matter has been added.

The Applicant again requests entry of the amendments as set forth herein prior to examination of the application on the merits.

Respectfully submitted,

Kevin K. Johanson
